FOREWORD

BACKGROUND AND PURPOSE

Travel Alberta commissioned Ruston/Tomany & Associates to conduct Stage I of the National Parks Utilization Study[1]. The study was conducted under the auspices of a Steering Committee formed by Travel Alberta. Organizations represented on this Committee included:

- Travel Alberta
- British Columbia Ministry of Tourism and Provincial Secretary
- Tourism Development, Department of Regional Industrial Expansion
- Canadian Parks Service
- Statistics Canada
- Banff - Lake Louise Chamber of Commerce
- Jasper Chamber of Commerce
- Ruston/Tomany & Associates

Acknowledgements of special contributions made by individuals and organizations over the two year course of the study can be found at the end of this volume.

The first stage of this two stage project was designed to provide a data base on visitors to the Rocky Mountain National Parks. The data base will be used in preparing a marketing and development plan for the future of the parks (Stage II).

---

[1]Under the terms of the Joint Federal/Provincial Sub-Agreement No.0343.

The specific objectives of the Visitor Use and Profile Survey included the following:

- Measure the volume and value of visitors to the Rocky Mountain National Parks system in total and to Banff and Jasper National Parks separately;

- Obtain detailed market information on trip and traveller characteristics;

- Determine current use of facilities, services, attractions, activities and events in the parks, including interpretive and educational programs and facilities; and

- Identify motivations for visiting the parks, and attitudes and perceptions regarding park experiences.

The study was a cordon-type exit survey in which randomly selected representatives of travel parties leaving the four Rocky Mountain National Parks via highway, scheduled bus, scheduled train and overnight chartered motorcoach were interviewed. Interviewing was conducted throughout the four seasons, commencing on June 15, 1987 and ending on June 14, 1988.

- **Sampling And Weighting**

A multi-stage stratified probability sample, stratified by mode of exit, exit port, weekday/weekend and season was designed to generate a random sample of "stints" (times/places) during which interviews and vehicle counts would be conducted.

Survey completions were computer-weighted to expand the sample, on a season-by-season basis, to reflect all non-resident parks entrants, visitors and visitor expenditures during the survey period.

- Data Collection

The survey design involved interviewing adults (16 years or more) as they left the national parks by road, scheduled bus/train or chartered motorcoach. In order to qualify to complete an interview, respondents had to live outside the parks, could not be in the park on a sales call or delivery, as a member of a work crew or employee, or commuting to or from work or school. Additionally, the selected respondent had to be leaving the Rocky Mountain National Parks for the last time on the "entire trip". Adults from all origins were eligible for inclusion in the study.

An interview was administered to qualified respondents[1] by Ruston/Tomany & Associates' trained interviewers. The "on-site" questionnaires were prepared in a self-completion format for charter motorcoach passengers, non-English travellers[2] and roadside traffic during the winter season due to the extremely cold weather conditions.

Parks visitors were asked to complete a questionnaire detailing characteristics of their trip (including the number of

---

[1]For study definitions, see Appendix to this volume.

[2]Survey materials were provided in English, French, Japanese and German. Copies of English versions of the roadside summer and winter questionnaires are appended to this document for reference purposes. See Section B, Volumes 1 and 2 of the Technical Appendix for complete set of questionnaires.

nights away from home, number spent in the national parks, type of accommodation used within the parks and number of nights spent in each, prepaid and direct expenditures for the travel party). Demographic information was obtained from both visitors and pass-throughs.

Each visitor was given a self-completion questionnaire in the appropriate language to be filled out and mailed back after leaving the park. The "mailback" questionnaire included questions about sites visited and activities participated in while the visitor was in Banff and/or Jasper National Park, ratings of these two parks on a variety of characteristics, and additional behavioural and demographic information about the household.

- Traffic Counts

In addition to the interviewing periods, traffic counts were taken at each roadside stint. These counts were supplemented by passenger counts for bus, train and motorcoach stints. Together, these counts formed the nucleus of entrant traffic used in projecting the survey sample to the universe of parks entrants, pass-throughs and visitors. Details of the sampling and weighting procedures used are described in Section A, of the Technical Appendix.

- Completed Interviews

A total of 3551 interviews were completed over the year. Ten "outlier" interviews were removed from the data file and imputed stints (for stints cancelled because of weather conditions) were added to the data file at the tabulation stage. The

Not Final Exit From Parks System[2]	24	28	21	22	21
Qualified, But Refused After Screening	1	1	2	1	1
Total Completions With Qualified Parks Entrants	53	54	55	54	49

(Source: Detailed Tables, Volume I, page 1-2)

[1]Includes parks residents, staff, emergency vehicles, taxis, sales calls, deliveries, etc.

[2]To qualify, the respondent had to be leaving the parks for the last time on the entire trip.

final distribution of usable interviews on which the tabulations are based is shown in the following table:

Exhibit 2

BY SEASON[1]

	TOTAL	SUMMER	FALL	WINTER	SPRING
ENTRANTS	3663	1504	523	1087	549
VISITORS	2783	1189	378	822	394
PASS-THROUGH	880	315	145	265	155

The attitudinal questionnaire was distributed to 2783 visitors over the year and was returned in a usable form by 1503 (54% response rate).

Stint monitoring and in-office validations were conducted on at least ten percent of stints and completed interviews over the full course of the study. The facing table details the contacts made in order to achieve the completed interviews.

- Coding, Editing, Data Tabulation

Ruston/Tomany & Associates' data processing department edited all questionnaires for internal consistency, and prepared code lists for review and approval by Travel Alberta personnel.

All data entry was verified. Prior to presentation of final estimates for each season, a review of existing information available to members of the Steering Committee about the number of visitors and their usage patterns within the Rocky

---

[1]All figures included imputed stints. Seasons were defined by Travel Alberta as follows:

Summer	June 15 to September 7
Fall	September 8 to October 31
Winter	November 1 to April 14
Spring	April 15 to June 14

Mountain National Parks was undertaken. These reviews were conducted in conjunction with the Steering Committee, and any adjustments made to the original data file were approved by the Technical Committee. Expenditure information provided by parks visitors was allocated to categories and to Banff and Jasper National Parks according to pre-established rules. Details of the procedures used to review estimates and to assign expenditures are to be found in Section A, of the Technical Appendix.

FINDINGS

Findings of the Visitor Use and Profile Survey are available in the following documents:

- **Technical Appendix**

  Section A: Methodology

  Section B: Data Collection, Survey Manual and Coding Materials (Volumes 1, 2, 3)

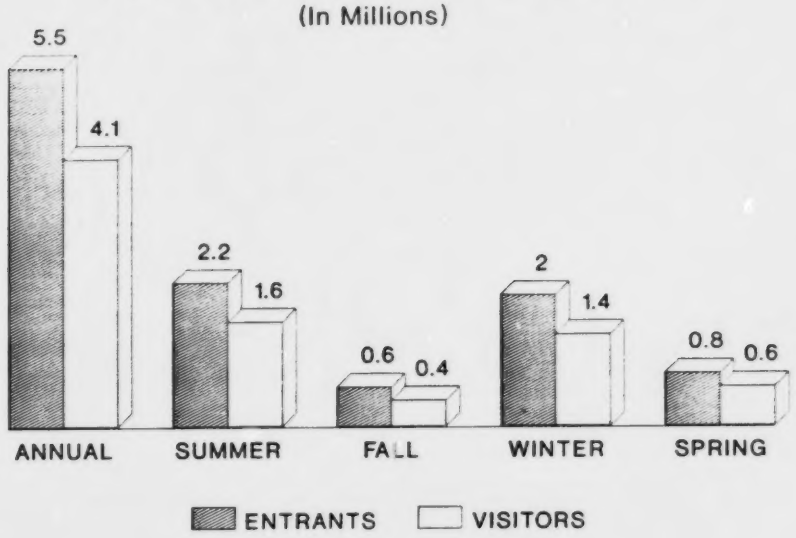
  Section C: Detailed Stint Information

- **Data Tape**

EXECUTIVE SUMMARY

- More than 5.5 million individuals, or over 2 million separate travel parties from Canada, the United States and overseas entered the boundaries of the Rocky Mountain National Parks between June, 1987 and June 1988[1].

PERSON ENTRANTS AND VISITORS
(In Millions)



- Three in every four "entrants"[2] to the Rocky Mountain National Parks spend time, money or do some sightseeing within the parks. Thus, the "visitor"[2] population over the year exceeds 4 million individuals or 1.6 million travel parties. About 4-in-10 of these visitors come to the parks in the summer while a somewhat lower proportion (35%) visit during the winter months.

---

[1]Figures presented in this summary meet the Statistics Canada Guidelines for Classes of Statistics "A" through "F", unless otherwise noted. For a list of the tolerances at the 95% level of confidence on key statistics and the Statistics Canada Class of Statistic, see the Appendix to this volume.

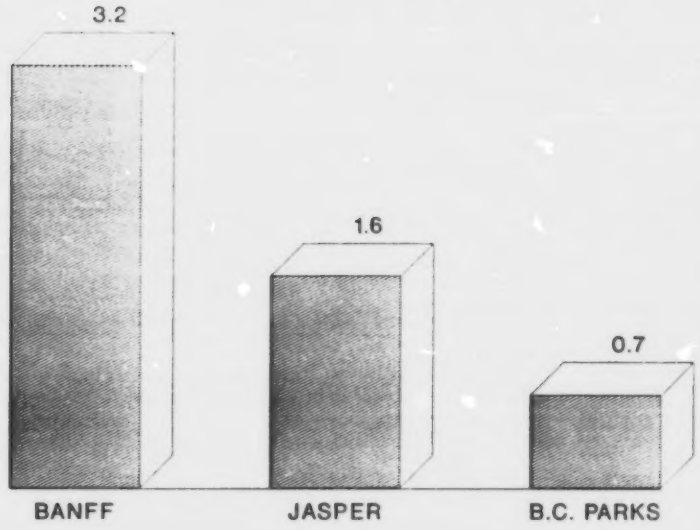
[2]See Appendix to this volume for survey definitions of "entrant", "visitor", and seasons.

- Banff National Park is the most highly utilized of the four parks, hosting 3.2 million visitors over the year. Unlike Jasper, Yoho or Kootenay, Banff is as successful in attracting visitors in the five month winter season (1.2 million) as it is in the three month summer season (1.2 million).

- Jasper National Park achieves about one-half the annual visitor utilization as does Banff. From June 1987 to June 1988 this park hosted 1.6 million visitors, most of whom came during the warm months (summer 0.9 million[1]; winter 0.3 million).

PERSON VISITORS BY PARK

(In Millions)



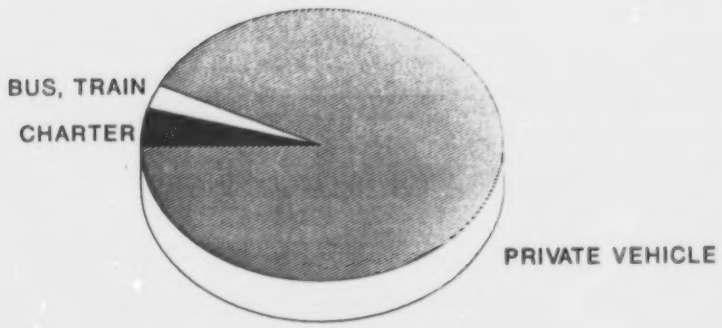
- Over the year, approximately three-quarters of a million[1] visitors spend time, money or sightsee within the borders of Yoho and Kootenay National Parks.

---

[1]"Qualified number" according to Statistics Canada Classes of Statistics: use with extreme caution.

- The vast majority of visitors to the Rocky Mountain National Parks arrive in private vehicles (93%). The remainder come to the parks via scheduled bus or train (3%), or as part of an overnight motorcoach tour (5%).

MODE OF ENTRY



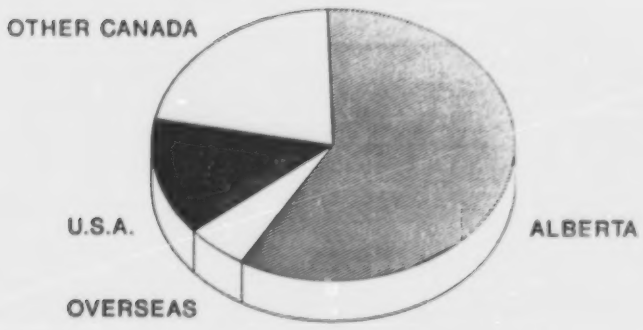
- These visitors tend to travel in adult-only parties, with an average party size of 2.5 individuals. Only about 2-in-10 visitor parties include members who are under sixteen years of age.

- The parks attract a wide range of visitors in terms of age and other demographic characteristics. The "typical" Rocky Mountain National Parks visitor, however, represents an affluent individual who is generally employed in a white collar occupation or works as a professional, manager or executive. He or she is most likely to be between the ages of 25 and 44 years (50%), although about one-fifth are over 55 years of age.

- Because there is considerable overlap among the visitor populations to each of the four parks, demographic profiles do not differ substantively from park to park. At the same time, there are directional indications that the Banff visitor is somewhat younger than the Jasper visitor. This finding likely reflects Banff's special appeal to skiers. Skiers, in turn, tend to be younger than the "typical" visitor.

- The Rocky Mountain National Parks attract visitors from all over the world although Canadians, and particularly Albertans predominate. Of the 4.1 million visitors over the year, 3.3 million are Canadians. Multiple visits by Albertans over the course of a year explain the large number of residents of this province in the visitor mix (2.4 million).

ORIGIN



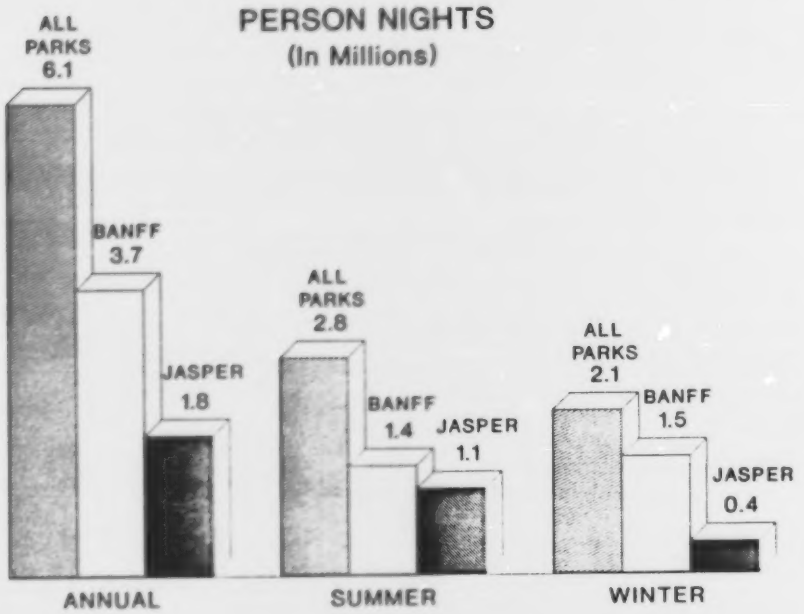
- Just over one-half million Americans come to the Rocky Mountain National Parks over the year. Of the forty-five states represented, Washington, California, Montana and Ohio have the most significant impact on tourism within the parks.

- Overseas markets, the most notable being Japan, West Germany, the United Kingdom and Australia, yield a further one-quarter million visitors.

- Over the twelve month period, the parks host slightly more overnight visitors (2.3 million) than same-day visitors (1.8 million). Not surprisingly, foreign visitors, and particularly those from overseas, are more likely to spend nights within the Rocky Mountain National Parks than are Canadian tourists.

- If a visitor does spend nights in the Rocky Mountain National Parks, he or she is likely to spend 2.6 nights, on average. Thus, over the year, more than 6 million person nights or 2.5 million party nights are spent within the boundaries of the four parks.

- On a seasonal basis, person nights are only slightly more concentrated in the summer (2.8 million) than they are in the winter (2.1 million).



- In keeping with the overall utilization pattern, Banff National Park hosts about twice as many person nights (3.7 million) as does Jasper National Park (1.8 million).

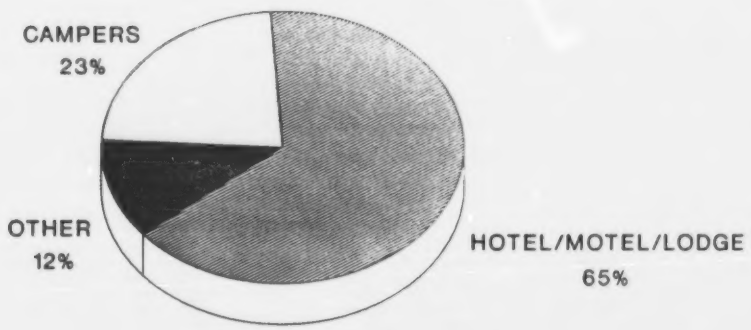
- Banff is also considerably more likely than Jasper to accommodate overnight guests in both "peak seasons". Approximately 4-in-10 of the person nights spent in Banff occur during the summer, and a similar proportion fall within the winter season. In Jasper, on the other hand, 6-in-10 person nights are "summer nights", and just over 2-in-10 occur during the winter.

- Over the full year, just under 1-in-4 person nights (1.4 million), or 0.6 million party nights are spent in campgrounds or trailer facilities within the parks.

- Because of the climatic conditions within the Rocky Mountain National Parks, these campers are likely to be found only in the summer. In fact, 8-in-10 of all camper nights occur during this season.

- Of the 2.8 million **summer** person nights spent in the four parks, about 1.1 million (0.5 million party nights) are spent in camping or trailer facilities.

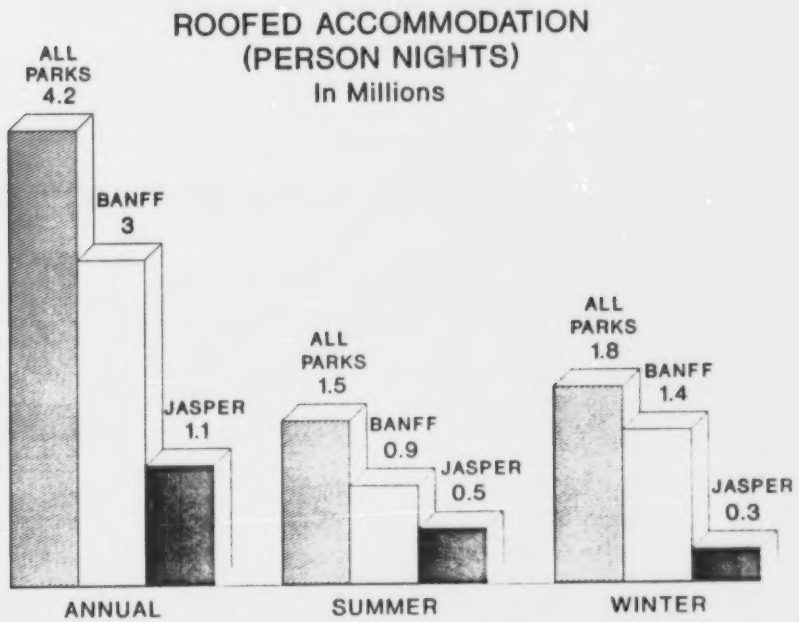
ANNUAL PERSON NIGHTS



- On an annual basis, visitors using commercial roofed shelter during their overnight stay within the parks represent about 4.2 million person nights. When viewed in terms of party nights, approximately 1.8 million are spent in some form of

roofed accommodation within the Rocky Mountain National Parks, with most (1.6 million party nights) concentrated in one of the many hotels, motels, resorts or lodges within the four parks' boundaries.

- Fewer than 4-in-10 of the 4.2 million commercial roofed accommodation nights in the Rocky Mountain National Parks occur during the summer season (35%).

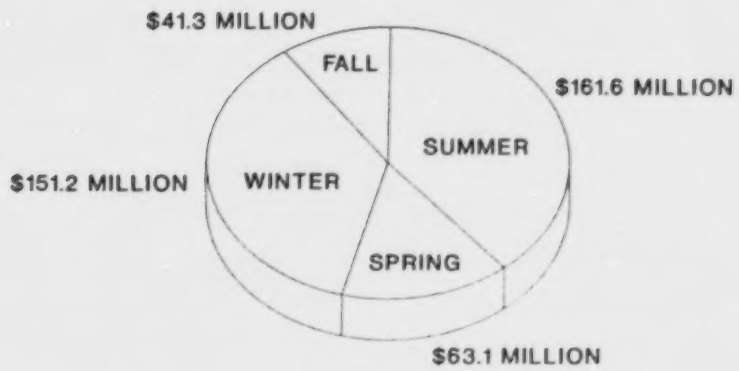


- At the same time, the winter season accounts for more than 4-in-10 of these person nights (43%). The remaining person nights spent in commercial roofed accommodation in the parks are almost evenly divided between the two shoulder seasons.

- Between June 1987 and June 1988, the Rocky Mountain National Parks realized more than $410 million in visitor revenue[1].

- On average, then, every man, woman and child who visited the Rocky Mountain National Parks over the year spent about $100 during his or her park stay.

ANNUAL REVENUE BY SEASON



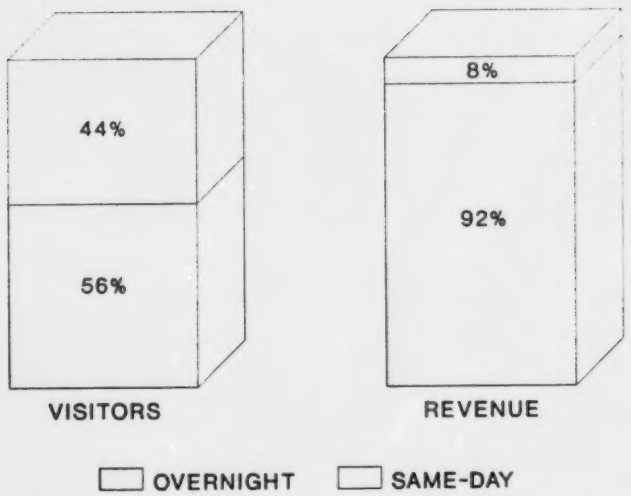
- Approximately equal portions of total revenue are generated in summer and winter. Each of these peak seasons accounts for just under four in every ten dollars spent in the parks over the year.

---

[1]All dollars are in Canadian currency.

- Given that Banff National Park supports about twice the level of visitation as does Jasper National Park, it is not surprising that the revenues accruing to each park are quite different. Over the year, it is estimated that Banff receives $287 million in total revenue, whereas Jasper is credited with $113 million[1]. Over the year, visitors spend about $13 million in the British Columbia parks.

LENGTH OF STAY



- Length of stay within the Rocky Mountain National Parks has a dramatic impact on expenditure patterns. Although they account for just slightly more than one-half of all visitors, overnight tourists spend more than nine out of every ten dollars spent in the parks over the year.

- Conversely, same-day visitors represent more than 4-in-10 person visitors over the year, but contribute less than ten percent of total annual revenue.

---

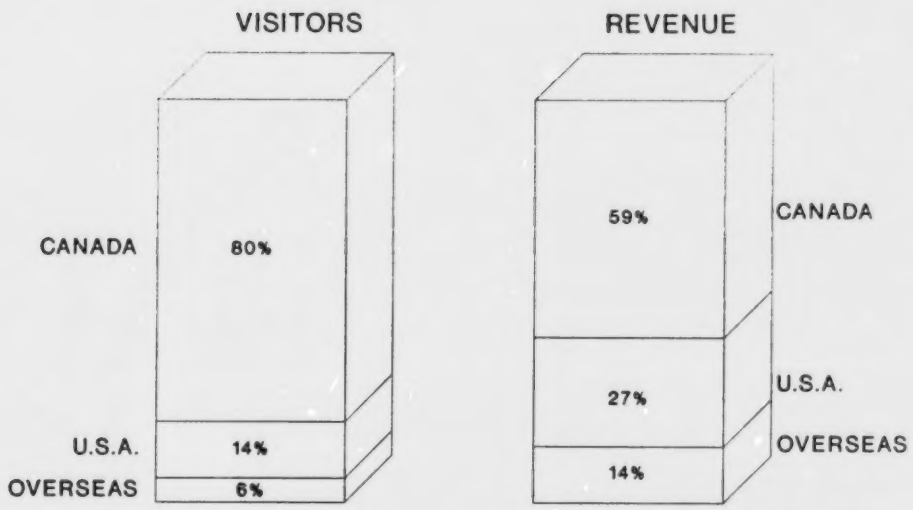
[1]"Qualified number" according to Statistics Canada Classes of Statistics: use with extreme caution.

- Expenditure patterns among origin groups are explained, in large part, by the fact that visitors from the United States and overseas are more likely than are Canadians to spend nights within the Rocky Mountain National Parks.

- While Canadians account for 8-in-10 of all visitors, they represent only six out of every ten dollars spent in the parks.

- In contrast, American and overseas tourists would seem to supply revenue for the parks at a rate that is twice their contribution to overall visitation.

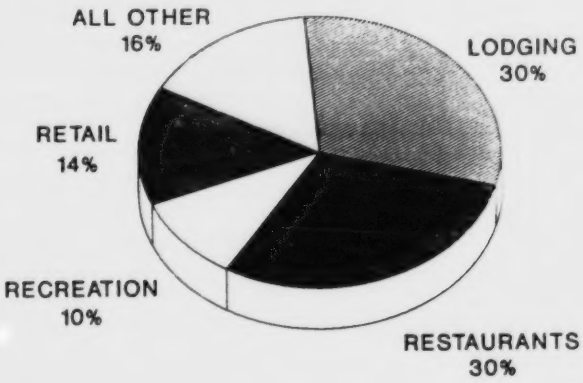
IMPACT OF ORIGIN



- Food and lodging constitute the two largest components of tourism revenue to the Rocky Mountain National Parks. Accommodation within the parks generates 30% of all expenditures, or more than $126 million, while restaurant meals generate only slightly less ($123 million).

- Other important contributors to total revenue include the following:
  - retail purchases ($60 million),
  - recreation-related expenditures such as tickets to events and equipment rentals ($43 million),
  - vehicle maintenance at service stations within the parks ($27 million), and
  - groceries and beverages purchased at stores within the parks ($18 million)[1].

KEY EXPENDITURE CATEGORIES



- Visitors to Banff and Jasper National Parks are extremely satisfied with their park experience. They give their visit an "excellent" or "very good" rating, and offer few criticisms. The main concerns relate to townsite facilities (public washrooms, parking, congestion), road surfaces and signage, and overall costs.

- The natural features of the parks -- the mountains, scenery, wildlife and splendour of the setting -- are considerably more prominent than are facilities or services when visitors describe the principle benefits of the park experience.

---

[1]"Qualified number" according to Statistics Canada Classes of Statistics: use with extreme caution.

- Sightseeing, viewing wildlife, resting/relaxing, shopping and taking photographs are especially prominent activities among visitors to Banff and Jasper National Parks[1]. Approximately one-half of Alberta parks visitors claim to engage in each of these activities.

- Between one-quarter and one-fifth of Banff/Jasper visitors indicate that they spend some of their time in the parks involved in more physically demanding activities, including hiking or climbing and/or water sports including swimming.

- The Banff townsite is the most widely visited of all sites in the Banff/Jasper park system. It hosts approximately 2.6 million visitors over the year, compared to 1.3 million who spend time in the Jasper and/or Lake Louise townsites.

- Among popular lakes in the park, Lake Louise attracts the most visitors (29%), followed by Bow (14%), Moraine (11%), and Maligne Lakes (11%).

- Other natural attractions on visitors' itineraries through Alberta parks include Bow Falls (20%), the Columbia Icefield (16%), the Athabasca Glacier (12%), and Maligne Canyon (13%).

- Almost 1-in-4 visitors include a stop at the Banff Springs Hotel among the historical sites they see.

- Park Information Centres are utilized by about one-quarter of these visitors while on their journey through the two Alberta parks.

---

[1]These and the following data derive from the self-completion attitudinal questionnaire and should be interpreted with caution. See introduction to Volume III for a discussion of this issue.

- Most sites and attractions, apart from ski resorts, have particularly high utilization levels during the three month summer season. Usage declines markedly during the winter months. Even indoor activities, such as museums, attract lower proportions of shoulder and winter season visitors than is the case during the summer.

LONG TERM MARKETING AND STRATEGIC ISSUES

INTRODUCTION

The Visitor Use and Profile Study provides a large and complex data base for the use of park planners and those interested in marketing tourism within the Rocky Mountain National Parks. As such, these data are subject to numerous interpretations.

Based on an analysis of the study findings, hypotheses or suggestions for future planning in the Rocky Mountain National Parks emerge. Some of these, based on the writer's interpretation of the findings, are provided in this section.

The Younger And The Older Visitor

Targeting the Rocky Mountain National Parks to travel units without children would seem to be both an obvious market, and one that reflects the reality of the current visitor population. The data clearly suggest that most visitors bring no young children with them on their trip to the parks.

Instead, the park clientele is divided into younger active couples or singles and older, more sedentary couples or singles. Given the present visitor party composition, however, meeting the needs of young singles and couples and of older singles and couples simultaneously may prove to be difficult. These groups may, in fact, require quite different services and facilities.

Certainly as the population ages, the needs of the two groups will become even more disparate. One group may demand more fully developed hiking trails and nightlife while the other needs a more extensive shuttle bus service and ramps for wheelchairs at scenic viewpoints.

Park planners might have to consider a two-pronged approach, developing sufficient accessible sites and facilities that would make the visit to the parks fulfilling to an aging tourist, while maintaining or enhancing services to an increasingly fit, active younger market.

Autumn Potential

Seasonal data suggest that the early fall could be more intensely utilized by directing marketing efforts at those individuals who are not constrained by traditional "summer holidays".

If "empty nesters" could be convinced that September is less congested in the parks, but still delivers good weather, they might make a significant contribution to increased shoulder season use of the parks.

Separate Personalities

Throughout the data there are suggestions that Jasper, Yoho and Kootenay visitors are more vigourous and outdoors-oriented than is the Banff visitor. Would it be valuable to the Rocky Mountain National Parks as a whole to develop more differentiated "personalities" for the individual parks?

Take, for example, the relatively high utilization of gondola lifts among Banff visitors. Riding a gondola is a means of observing scenic panoramas without having to climb a mountain. Could Banff further develop this "effort-free" approach to its natural splendour while Jasper and the British Columbia parks take a more "rugged" or "strenuous" approach?

The Japanese

The high proportion of repeat visitors to the Rocky Mountain National Parks attests to the parks' appeal. But the parks need new visitors as well. Marketing efforts directed toward foreign tourists, and especially Americans and Japanese seem warranted.

Although the Japanese tourist spends a disproportionate amount of money on retail items in the parks, he or she is not as enticed by recreational or entertainment spending opportunities. Are there sufficient recreational packages within the parks that cater to the needs of this group?

This study provides no suggestions about the type of recreational programming that might appeal to the Japanese visitor. Such information could be obtained through discussions with tour operators, and through qualitative research among the target market.

How interested would Japanese park visitors be in services such as ski lessons or canoe excursions with Japanese speaking instructors? These types of activities are mentioned because the Japanese tourist tends to be younger than the average visitor and visits the Rocky Mountain National Parks in both the summer and winter. Obviously, other activities and services that would cater to the language and cultural requirements of this group could also be explored.

The Americans

Americans, unlike Japanese visitors, simply do not seem to come to the Rocky Mountain National Parks during the winter. Given the size and proximity of the tourism market in the United States, it would seem that a stronger "come in the winter" message could be conveyed to Americans.

The survey findings suggest that many winter visitors are not skiers. Hence, the "winter message" need not focus solely on ski facilities, although describing the challenge of the Canadian Rockies slopes might prove beneficial in attracting western American skiers who currently ski in California, Colorado or Washington.

"Winter benefit" messages supplied by visitors themselves include the "relaxing and calm atmosphere"; a place "to get away from it all". Particularly as they age and find crowded space more difficult to manage, tourists south of the border might respond to the "unhurried, uncrowded" beauty of snowy mountains (and snow-free sidewalks!).

The Canadians

At the same time, one is left asking why so few Ontarians and Quebeckers come to the parks. These two provinces represent such large, and almost untapped markets that it would seem reasonable to explore why they are not visiting the Rocky Mountain National Parks. Perhaps the national frictions over regionalism and language could be bridged with messages and service that convey the "Canadian" of the Canadian Rockies to attract Ontarians and Quebeckers.

ACKNOWLEDGEMENTS

Ruston/Tomany & Associates Ltd. wishes to acknowledge its gratitude to the many organizations and individuals who contributed technical expertise, background data, invaluable experience and moral support to the project team over the course of the National Parks Utilization Study, Stage I; Visitor Use and Profile Survey. It would be impossible to list everyone who contributed to this study, but special thanks are due to:

- Don Wilson, Manager, Market Research and Analysis, Travel Alberta, who kept the study moving over many months;

- Jim Rouse, Canadian Parks Service, who raised key methodological and estimation concerns;

- Mike Sheridan, Project Manager, Statistics Canada's Special Surveys Group, for his down-to-earth methodological insights;

- Don Sears, Chief of Visitor Services, Banff National Park, whose day-to-day involvement in and support of the study ensured cooperation for our survey teams throughout the parks;

- Bob Huddleston, Senior Health and Safety Officer, Alberta Transportation, whose invaluable contribution to the roadside vehicle diversion procedures helped make it possible to interview motorists safely; and

- Gerry Spratt, Occupational Health and Safety Coordinator, Alberta Personnel Administration, whose insight and experience helped us carry out twelve months of 100% "accident free" roadside interviewing.

Among the other organizations and individuals who deserve special thanks:

- For **Travel Alberta**: Don Syrnyk, Alan Koehler, Bev Darbyshire, Sid Nieuwenhuis, Lorena Tyschuk and Brenda Bush La France and Enid Markus (formerly with Travel Alberta);

- For the **British Columbia Ministry of Tourism and Provincial Secretary**: Jim Lee and Sylvia Waterer;

- For the **Canadian Parks Service**: Steve Kun, Dave Day, George Balding, Ian Church, Fred Bander, Doug Chambers, Jillian Roulet, Grant Potter, Judy Otton, Scott Meis, Peter Whyte, Byron Irons and the entire National Parks Warden Service;

- For the **Banff-Lake Louise Chamber of Commerce**: Hap Freeman;

- For the **Jasper Chamber of Commerce**: Cindy Beland;

- For **Alberta Transportation**: Shirley Johnson and Dave Sturgeon;

- For **Tourism Canada**: Blair Stevens and Gordon Taylor;

- For the **Department of Regional Industrial Expansion**: Georgine Ulmer;

- For the **Royal Canadian Mounted Police**: the men and women of the Canmore, Banff, Jasper, Nordegg, Field, B.C., Radium Hot Springs, B.C., and Golden, B.C. Detachments;

- For **Via Rail**: Dorothy Peterson and Eddie Ram;

- For **Brewster Transportation**: David Morrison, Mel Billings and Jim Fraser;

- For **Greyhound Canada**: Bob Park; and

- The managers and staff of the eighty-one accommodation establishments and four ski resorts in the parks, without whose cooperation the study could not have been completed.

SURVEY DEFINITIONS

Parks Entrant

Any person who entered the national parks other than those who live or work in the parks, or are in the parks for the purposes of commuting to or from work or school, on a sales or service call, or pick-up or delivery.

Parks Visitor

An entrant who spent any time, money or did any sightseeing while within the four Rocky Mountain National Parks boundaries. Visitors to individual parks are defined to be those individuals who spent any time, money or did any sightseeing within the boundaries of the specific park[1]. Thus, the individual who entered Yoho National Park and Banff National Park, but spent time/money or did sight- seeing only in Banff National Park is defined as follows:

- Visitor to the Rocky Mountain National Parks;
- Visitor to Banff National Park;
- Pass-through to Yoho National Park.

Parks Pass-Through

An entrant who did not spend any time or money and did not do any sightseeing while within the four Rocky Mountain National Parks' boundaries is a pass-through for the entire parks system. The individual who entered but did not spend any time/money or do any sightseeing in a specific park is defined as a pass-through for that specific park.

Travel Party

For visitors exiting the parks by private vehicle, travel party is defined as those persons travelling with them in the vehicle. For those visitors exiting via bus, train or motorcoach, the travel party includes those people whom the respondent considers to be travelling with him or her in the same travel party. This, however, does not

---

[1]For overnight charters and all non-English respondents, "entrants" to a specific Park are also defined as "visitors" (see questionnaires for question wording).

include all people travelling together on a bus or train. In some cases, travel parties consist of members from more than one household.

Person Visitor/Entrant

A person entrant is one person who entered the Rocky Mountain National Parks system. A person visitor is one person who visited the Rocky Mountain National Parks system. If four people are travelling together, the particulars of this trip are applied to each member of the travel party. This results in a total of four person entrants or visitors, depending on the characteristics of the trip.

Party Visit/Entrant

An entrance to the Rocky Mountain National Parks by all members of the party constitutes one party entrant. Regardless of the number of people in the party, it is considered one party entrance or party visit, depending on the characteristics of the trip.

Person Night

A person night is one night on a trip spent by one person. If two people spend three nights each, this constitutes six person nights.

Party Night

This is one night spent on the trip by the party. If two people from a party spend three nights, this constitutes three party nights.

Ruston/Tomany & Associates Ltd.

Dear Visitor:

Ruston/Tomany & Associates, a market research firm, is conducting a study on behalf of the Governments of Canada, Alberta and British Columbia on the four National Parks - Banff, Jasper, Yoho and Kootenay. The information from this study will be used to help plan the future of the Parks.

Could you please take a few moments to complete the two attached questionnaires and return them to us in the postage-paid envelope provided.

It is important that only <u>one member</u> of your travel party completes the questionnaires. That person is the one who was selected to be interviewed when you were in the Parks.

<u>Please mail the completed questionnaires today</u> -- either when you arrive home or when you stop for the night. Postage is already paid so you do not have to put stamps on the envelope if it is mailed in Canada or the U.S.

Finally, I would like to thank you for your co-operation and hope that you had a very enjoyable visit to the Parks.

Yours sincerely,

Denis Tomany
President

ATTITUDINAL MAILBACK QUESTIONNAIRE

Distributed To All Parks Visitors
In All Modes For Self-Completion

'11 Elizabeth Street
oronto, Ontario M5G 1P7
416/977-1533

Ruston/Tomany & Associates Ltd.

Dear Respondent:

Thank you for taking the time to take part in the National Parks Visitor Survey. This mailback questionnaire will provide us with the additional information we require to get a complete and accurate record of your Park visit. The information you provide will be used to better the National Parks.

Your answers are extremely important, so please complete the questionnaire and return it in the stamped envelope provided.

Yours sincerely,

Denis Tomany
President

DT/ss

Ruston/Tomany & Associates Ltd.

R/T 19151

5-5

6-1

7-1

THIS QUESTIONNAIRE IS TO BE COMPLETED BY THE SAME PERSON IN THE TRAVEL PARTY WHO WAS SELECTED TO ANSWER THE INTERVIEWER'S QUESTIONS IN THE PARK. THAT PERSON IS_____.
NAME

A FEW INSTRUCTIONS BEFORE YOU BEGIN

Most questions are multiple choice, with a number next to each of the possible answers. To show your answer, just draw a circle around the number next to the answer that applies.

For example:

My favorite colour is...

Blue	1
Green	2
Red	(3)
Yellow	4

If more than one answer applies, then circle all appropriate numbers.

A few questions have blank spaces instead of answer numbers. Just complete these in your own words.

IF YOU ONLY SPENT TIME IN YOHO OR KOOTENAY NATIONAL PARKS, PLEASE SKIP TO Q.10 ON PAGE 10. EVERYONE ELSE PLEASE COMPLETE THE ENTIRE QUESTIONNAIRE.

1. In the list below, please circle all the activities and programs in which you participated on this trip to Banff and/or Jasper National Parks. Please do not include activities or programs you participated in only in Yoho or Kootenay National parks. (REFER TO THE MAP AND CIRCLE AS MANY ITEMS AS APPLY).

Sightseeing by car	01	Bicycling	24
Sightseeing by bus	02	Golfing	25
Viewing Wildlife	03	Tennis	26

ANSWER QUESTION 5 IF YOU SPENT TIME IN BANFF NATIONAL PARK

5-a) Please indicate your level of satisfaction with Banff National Park on the following attributes, using a scale from one to seven, where one is very dissatisfied and seven is very satisfied. The more satisfied you were with the Park on the attributes shown, the higher the number you would choose, the less satisfied you were, the lower the number you would choose. CIRCLE ONE NUMBER FOR EACH STATEMENT.

	Very Dissat-isfied			Neither Satis-fied/ Dissat-isfied			Very Satis-fied	No Opinion/ Does Not Apply
1. Availability of suitable accommodation	1	2	3	4	5	6	7	9
2. Choice of restaurants/food and beverage services for you	1	2	3	4	5	6	7	9
3. Nightlife, theatre and entertainment	1	2	3	4	5	6	7	9
4. Public washroom facilities	1	2	3	4	5	6	7	9
5. Quality of food/ beverage	1	2	3	4	5	6	7	9
6. Comfort and cleanliness of accommodation	1	2	3	4	5	6	7	9
7. Shopping opportunities	1	2	3	4	5	6	7	9
8. Quality of camping	1	2	3	4	5	6	7	9
9. Quality of service	1	2	3	4	5	6	7	9
10. Wilderness protection and nature conservation	1	2	3	4	5	6	7	9
11. Friendliness, courtesy and hospitality of people working there	1	2	3	4	5	6	7	9
12 Overall cost	1	2	3	4	5	6	7	9

-b) In your opinon what, if anything, is special about Banff National Park which makes it different from other parks you have visited? WRITE IN BELOW.

_____

_____

_____

ANSWER QUESTION 6 IF YOU SPENT TIME IN JASPER NATIONAL PARK

6-a) Please indicate your level of satisfaction with Jasper National Park on the following attributes, using a scale from one to seven, where one is very dissatisfied and seven is very satisfied. The more satisfied you were with the Park on the attributes shown, the higher the number you would choose, the less satisfied you were, the lower the number you would choose. CIRCLE ONE NUMBER FOR EACH STATEMENT.

	Very Dissat-isfied			Neither Satis-fied/ Dissat-isfied			Very Satis-fied	No Opinion/ Does Not Apply
1. Availability of suitable accommodation	1	2	3	4	5	6	7	9
2. Choice of restaurants/food and beverage services for you	1	2	3	4	5	6	7	9
3. Nightlife, theatre and entertainment	1	2	3	4	5	6	7	9
4. Public washroom facilities	1	2	3	4	5	6	7	9
5. Quality of food/ beverage	1	2	3	4	5	6	7	9
6. Comfort and cleanliness of accommodation	1	2	3	4	5	6	7	9
7. Shopping opportunities	1	2	3	4	5	6	7	9
8. Quality of camping	1	2	3	4	5	6	7	9
9. Quality of service	1	2	3	4	5	6	7	9
10. Wilderness protection and nature conservation	1	2	3	4	5	6	7	9
11. Friendliness, courtesy and hospitality of people working there	1	2	3	4	5	6	7	9
12. Overall cost	1	2	3	4	5	6	7	9

-b) In your opinon what, if anything, is special about Jasper National Park which makes it different from other parks you have visited? WRITE IN BELOW.

_____

_____

_____

7. Excluding this visit, in what year was your last visit to Banff or Jasper National Park? WRITE IN BELOW OR CHECK BOX.

_____
YEAR

[] NEVER VISITED BEFORE THIS TIME

8. Please indicate on the list below, what sources of information were used to plan your trip to Banff/Jasper National Parks. (PLEASE CIRCLE AS MANY AS APPLY).

I received literature or information <u>before</u> leaving on this trip from...

- Travel Alberta..... 01
- Tourism Canada..... 02
- Parks Canada..... 03
- British Columbia..... 04
- Canadian Government Office Outside Canada (example: embassy,consulate, trade or tourist office)..... 05

I received information from an information centre <u>while on the trip</u>..... 06

I received information at a travel show..... 07

I consulted a travel agency and...

- Was provided with literature..... 08
- Was provided with other information..... 09

I saw a T.V. advertisement..... 10

I saw any other type of advertisement..... 11

I saw a travel article..... 12

I saw a travel film..... 13

I read a travel book..... 14

Advice of friends or relatives..... 15

My own previous experience..... 16

DIDN'T USE ANY INFORMATION SOURCES..... 17

9. When did you make the final decision to visit the Banff/Jasper National Parks System? Please circle the number beside the month and write in the year in the space provided.

MONTH				YEAR
January	01	July	07	_____ (WRITE IN)
February	02	August	08	
March	03	September	09	
April	04	October	10	
May	05	November	11	
June	06	December	12	

5-5

EVERYONE PLEASE ANSWER ALL REMAINING QUESTIONS. 6-2

PLEASE REFER TO THE ENCLOSED MAP TO ANSWER QUESTION 10. 13-

10 Please indicate where you <u>first</u> entered the National Parks on your trip.

Location 1	(HWY 16 - EAST GATE)	1
Location 2	(HWY 16 - WEST GATE)	2
Location 3	(HWY 11 - EAST GATE)	3
Location 4	(HWY 1 - WEST GATE)	4
Location 5	(HWY 93 - WEST GATE)	5
Location 6	(HWY 1 - EAST GATE)	6

-b) What was the date of this first entry?

_____ Month _____ Day

-c) And about what time of day did you first enter the Parks System?

Between 6 a.m. and 12 noon	1
From noon to six o'clock p.m.	2
Between 6 p.m. and midnight	3
or From midnight to 6 a.m.	4

IF YOU LIVE OUTSIDE CANADA, ANSWER Q.11.

11. At what city, town or border crossing point did you enter Canada on this current trip?

_____ CITY/TOWN/BORDER CROSSING _____ PROVINCE

12. Thinking of your entire trip, including the time you spent in the Parks, which <u>one</u> trip type defined below best describes the kind of trip you took?

<u>An outdoors vacation</u>. A vacation in a natural area where you may engage in activities such as camping, fishing, hiking or rafting. 1

<u>A resort vacation</u>. A trip to a resort or resort area where a wide variety of activities, such as beaches, skiing, golfing, tennis and so on, are available close by or on the premises. 2

<u>A close-to-home leisure trip</u>. A trip to a place close to home where you can enjoy activities such as a beach, lake, seashore, or park. 3

<u>A touring vacation</u>. A vacation by car or bus or train through areas of scenic beauty, cultural or general interest. 4

13. Which category <u>best</u> describes the people who made up your immediate travel party on your trip to the Parks?

A Couple 1

Family/relatives 2

Friends 3

Business Associates 4

School Group 5

Club/Association/Convention Group 6

Senior's Group 7

By Myself 8

Other (SPECIFY) _____

14. Which of the following items of equipment did you have with you on your trip to the Parks? CIRCLE ALL ITEMS OF EQUIPMENT YOU HAD WITH YOU. (IF YOU DID NOT TAKE ANY OF THE LISTED EQUIPMENT WITH YOU, CHECK THIS BOX [] AND SKIP TO THE NEXT QUESTION).

Tent	01	Fishing equipment	13
Backpacking equipment	02	Snorkel/scuba equipment	14
Climbing equipment	03	Golf clubs	15
Hiking boots	04	Motorized Golf Cart	16
Field guides	05	Sailboard	17
Still camera	06	Bicycle	18
Movie camera	07	Motorcycle	19
Videotape camera	08	Boat	20
Binoculars/telescope	09	Canoe/Kayak	21
Downhill skis	10	All-Terrain-Vehicle (ATV)	22
Cross country skis	11	Snowmobile	23
Snowshoes	12	Other equipment	24
		(SPECIFY):_____	
		_____	

15-a) Now please think about the people in your household, regardless of whether they travelled with you on your trip to the Parks.

How many people, including yourself and any infants, are in your household? (WRITE IN NUMBER)

_____

-b) And how many, if any, are under six years old and how many are six to eighteen years old inclusive? (WRITE IN NUMBERS)

NUMBER UNDER SIX YEARS OLD _____

NUMBER 6 TO 18 YEARS INCLUSIVE _____

-c) Is the chief wage earner in the household under 45 years old or 45 years or over? (CHECK ONE BELOW)

Under 45 years 1

45 years or more 2

16-a) Finally, to help us classify the information, would you please indicate which of the following general categories best describes your personal annual income before taxes and other deductions. (CIRCLE ONE NUMBER ONLY AND INDICATE CURRENCY).

Under $10,000	1
$10,000 - $14,999	2
$15,000 - $19,999	3
$20,000 - $29,999	4
$30,000 - $39,999	5
$40,000 - $49,999	6
$50,000 - $59,999	7
$60,000 - $69,999	8
$70,000 - $74,999	9
$75,000 or more	0

CURRENCY (CIRCLE ONE)	
Canadian	1
U.S.	2

-b) And would you please indicate which of the following general categories best describes your total household income before taxes and other deductions. (CIRCLE ONE NUMBER ONLY AND INDICATE CURRENCY).

Under 10,000	1
$10,000 - $14,999	2
$15,000 - $19,999	3
$20,000 - $29,999	4
$30,000 - $39,999	5
$40,000 - $49,999	6
$50,000 - $59,999	7
$60,000 - $69,999	8
$70,000 - $74,999	9
$75,000 or more	0

CURRENCY (CIRCLE ONE)	
Canadian	1
U.S.	2

NOTES AND EXPLANATIONS

Volume I

Volume I Detailed Tabulations include all banners, bases and response categories for key behavioural measures of the National Parks Utilization Study, Stage I -- Visitor Use and Profile Survey. For Summer, Spring and Fall seasons, these measures are taken from administered questionnaires. For Winter season data, responses to the self-completion behavioural questionnaire (the self-completion corollary to the administered questionnaire in all other seasons) have been weighted to match the volume estimates established on the basis of administered screening questionnaires in this season.

See the Technical Appendix, Section A for details of these weighting and projection procedures.

Volume II

Volume II includes banners and response categories from the attitudinal self-completion questionnaires. Only those individuals who returned the self-completion attitudinal questionnaire are included in these tables. For consistency, this reduced base has been projected to the total volume estimates shown in Volume I Detailed Tabulations. Volume II also repeats the key measures provided in Volume I, utilizing banners and bases from the attitudinal self-completion questionnaires.

See the Technical Appendix, Section A for details of these weighting and projection procedures.

Bases

The first page of each table displays two base lines:

- **Actual Base**

  The number of responses utilized in the calculation prior to weighting and projection. Measurement of the tolerance on a particular statistic requires the use of the actual base (sample size for the particular statistic).

- **Weighted Base**

  The weighted base is the actual base subsequent to all weighting and projection procedures. Percentages and averages shown in the Detailed Tabulations are calculated on the "weighted base".

Special Notes On Particular Bases

In all but two instances, banner categories in the Detailed Tabulations are based on the number of parties or persons with the particular characteristic. For example, a main purpose banner will display the number of person visits, party visits, or the expenditures made by people who declare "vacation" or "business" (etc.) to be their main purpose.

The exceptions to this rule include:

- **Nights in Specific Parks/Accommodation Types**

  The number of nights in specific parks and the number in specific accommodation types represent the number of nights actually spent in specific parks/accommodation types.

- **Expenditures In Specific Parks**

  The dollars displayed for specific parks represent the dollars actually spent (or allocated) to the specific park.

<u>Survey Definitions</u>

Parks Entrant
Any person who entered the four Rocky Mountain National Parks other than those who live or work in the Parks, or are in the Parks for the purposes of commuting to or from work or school, on a sales or service call, or pick-up or delivery.

Parks Visitor
An entrant who spent any time, money or did any sightseeing while within the four Rocky Mountain National Parks boundaries. Visitors to individual Parks are defined to be those individuals who spent any time, money or did any sightseeing within the boundaries of the specific park[1].

---

[1]All overnight charter and all non-English "entrants" to a specific Park are also defined as "visitors" (see questionnaire for question wording).

Thus, the individual who entered Yoho National Park and Banff National Park, but spent time/money or did sightseeing only in Banff National Park is defined as follows:

- Visitor to the Rocky Mountain National Parks;
- Visitor to Banff National Park;
- Pass-through to Yoho National Park.

Parks Pass-Through

An entrant who did not spend any time or money and did not do any sightseeing while within the four Rocky Mountain National Parks' boundaries is a pass-through for the entire parks system. The individual who entered but did not spend any time/money or do any sightseeing in a specific park is defined as a pass-through for that specific park.

Travel Party

For visitors exiting the park by private vehicle, travel party is defined as those persons travelling with them in the vehicle. For those visitors exiting via bus, train or motorcoach, the travel party includes those people whom the respondent considers to be travelling with him or her in the same travel party. This, however, does not include all people travelling together on a bus or train. In some cases, travel parties consist of members from more than one household.

Person Visitor/Entrant

A person entrant is one person who entered the Rocky Mountain National Parks system. A person visitor is one person who visited the Rocky Mountain National Parks system. If four people are travelling together, the particulars of this trip are applied to each member of the travel party. This results in a total of four person entrants or visitors, depending on the characteristics of the trip.

Party Visit/Entrant

An entrance to the Rocky Mountain National Parks by all members of the party constitutes one party entrant. Regardless of the number of people in the party, it is considered one party entrance or party visit, depending on the characteristics of the trip.

Person Night

A person night is one night on a trip spent by one person. If two people spend three nights each, this constitutes six person nights.

Party Night
This is one night spent on the trip by the party. If two people from a party spend three nights, this constitutes three party nights.

Horizontal and Vertical Percentages

Percentages are provided for columns and rows. The base lines (both actual and weighted) display horizontal percentages. Each response category (shown on the side of the table) is percentaged on the total weighted base shown at the top of the column (vertical %) and is percentaged across all the banner points shown at the top of the table (horizontal %).

In the following example, the **horizontal percentages are displayed in bold** and the vertical percentages are underlined.

	Pass-Through Parties		
	Total	Banff	Jasper
Total Party Entrants (Actual)	880 100.0	578 65.7	343 39.0
Total Party Entrants (Weighted)	615496 100.0	487272 79.2	143798 23.4
Number of People 16+			
One	140482 22.8 100.0	109272 22.4 77.8	33298 23.2 23.7
Two	385185 62.6 100.0	304510 62.5 79.1	91888 63.9 23.9

This example tells the reader that 22.8% (vertical) of all pass-through Party Entrants have one person over 16 years of age in the party, and that of all parties with one person over 16 (140,482), 109,272 or 77.8% (horizontal) passed through Banff National Park.

Table Of Contents

Each section in Volume I contains the complete Table Of Contents, indicating whether specific tabulations are to be found in Section A, B, C or D.

A listing of tolerance figures and coefficients of variation for key statistics can be found at the end of Volume D.

DETAILED TABULATIONS

VOLUME I

(Sections A - D)

NOTES AND EXPLANATIONS

Volume I

Volume I Detailed Tabulations include all banners, bases and response categories for key behavioural measures of the National Parks Utilization Study, Stage I -- Visitor Use and Profile Survey. For Summer, Spring and Fall seasons, these measures are taken from administered questionnaires. For Winter season data, responses to the self-completion behavioural questionnaire (the self-completion corollary to the administered questionnaire in all other seasons) have been weighted to match the volume estimates established on the basis of administered screening questionnaires in this season.

See the Technical Appendix, Section A for details of these weighting and projection procedures.

Volume II

Volume II includes banners and response categories from the attitudinal self-completion questionnaires. Only those individuals who returned the self-completion attitudinal questionnaire are included in these tables. For consistency, this reduced base has been projected to the total volume estimates shown in Volume I Detailed Tabulations. Volume II also repeats the key measures provided in Volume I, utilizing banners and bases from the attitudinal self-completion questionnaires.

See the Technical Appendix, Section A for details of these weighting and projection procedures.

Bases

The first page of each table displays two base lines:

- Actual Base

  The number of responses utilized in the calculation prior to weighting and projection. Measurement of the tolerance on a particular statistic requires the use of the actual base (sample size for the particular statistic).

- **Weighted Base**

  The weighted base is the actual base subsequent to all weighting and projection procedures. Percentages and averages shown in the Detailed Tabulations are calculated on the "weighted base".

Special Notes On Particular Bases

In all but two instances, banner categories in the Detailed Tabulations are based on the number of parties or persons with the particular characteristic. For example, a main purpose banner will display the number of person visits, party visits, or the expenditures made by people who declare "vacation" or "business" (etc.) to be their main purpose.

The exceptions to this rule include:

- **Nights in Specific Parks/Accommodation Types**

  The number of nights in specific parks and the number in specific accommodation types represent the number of nights actually spent in specific parks/accommodation types.

- **Expenditures In Specific Parks**

  The dollars displayed for specific parks represent the dollars actually spent (or allocated) to the specific park.

<u>Survey Definitions</u>

Parks Entrant
Any person who entered the four Rocky Mountain National Parks other than those who live or work in the Parks, or are in the Parks for the purposes of commuting to or from work or school, on a sales or service call, or pick-up or delivery.

Parks Visitor
An entrant who spent any time, money or did any sight-seeing while within the four Rocky Mountain National Parks boundaries. Visitors to individual Parks are defined to be those individuals who spent any time, money or did any sightseeing within the boundaries of the specific park[1].

---

[1]All overnight charter and all non-English "entrants" to a specific Park are also defined as "visitors" (see questionnaire for question wording).

Thus, the individual who entered Yoho National Park and Banff National Park, but spent time/money or did sightseeing only in Banff National Park is defined as follows:

- Visitor to the Rocky Mountain National Parks;
- Visitor to Banff National Park;
- Pass-through to Yoho National Park.

Parks Pass-Through

An entrant who did not spend any time or money and did not do any sightseeing while within the four Rocky Mountain National Parks' boundaries is a pass-through for the entire parks system. The individual who entered but did not spend any time/money or do any sightseeing in a specific park is defined as a pass-through for that specific park.

Travel Party

For visitors exiting the park by private vehicle, travel party is defined as those persons travelling with them in the vehicle. For those visitors exiting via bus, train or motorcoach, the travel party includes those people whom the respondent considers to be travelling with him or her in the same travel party. This, however, does not include all people travelling together on a bus or train. In some cases, travel parties consist of members from more than one household.

Person Visitor/Entrant

A person entrant is one person who entered the Rocky Mountain National Parks system. A person visitor is one person who visited the Rocky Mountain National Parks system. If four people are travelling together, the particulars of this trip are applied to each member of the travel party. This results in a total of four person entrants or visitors, depending on the characteristics of the trip.

Party Visit/Entrant

An entrance to the Rocky Mountain National Parks by all members of the party constitutes one party entrant. Regardless of the number of people in the party, it is considered one party entrance or party visit, depending on the characteristics of the trip.

Person Night

A person night is one night on a trip spent by one person. If two people spend three nights each, this constitutes six person nights.

Party Night

This is one night spent on the trip by the party. If two people from a party spend three nights, this constitutes three party nights.

Horizontal and Vertical Percentages

Percentages are provided for columns and rows. The base lines (both actual and weighted) display horizontal percentages. Each response category (shown on the side of the table) is percentaged on the total weighted base shown at the top of the column (vertical %) and is percentaged across all the banner points shown at the top of the table (horizontal %).

In the following example, the **horizontal percentages are displayed in bold** and the vertical percentages are underlined.

	Pass-Through Parties		
	Total	Banff	Jasper
Total Party Entrants (Actual)	880 100.0	578 65.7	343 39.0
Total Party Entrants (Weighted)	615496 100.0	487272 79.2	143798 23.4
Number of People 16+			
One	140482 22.8 100.0	109272 22.4 77.8	33298 23.2 23.7
Two	385185 62.6 100.0	304510 62.5 79.1	91888 63.9 23.9

This example tells the reader that 22.8% (vertical) of all pass-through Party Entrants have one person over 16 years of age in the party, and that of all parties with one person over 16 (140,482), 109,272 or 77.8% (horizontal) passed through Banff National Park.

Table Of Contents

Each section in Volume I contains the complete Table Of Contents, indicating whether specific tabulations are to be found in Section A, B, C or D.

A listing of tolerance figures and coefficients of variation for key statistics can be found at the end of Volume D.

DETAILED TABULATIONS

VOLUME I

(Sections A - D)

NOTES AND EXPLANATIONS

Volume I

Volume I Detailed Tabulations include all banners, bases and response categories for key behavioural measures of the National Parks Utilization Study, Stage I -- Visitor Use and Profile Survey. For Summer, Spring and Fall seasons, these measures are taken from administered questionnaires. For Winter season data, responses to the self-completion behavioural questionnaire (the self-completion corollary to the administered questionnaire in all other seasons) have been weighted to match the volume estimates established on the basis of administered screening questionnaires in this season.

See the Technical Appendix, Section A for details of these weighting and projection procedures.

Volume II

Volume II includes banners and response categories from the attitudinal self-completion questionnaires. Only those individuals who returned the self-completion attitudinal questionnaire are included in these tables. For consistency, this reduced base has been projected to the total volume estimates shown in Volume I Detailed Tabulations. Volume II also repeats the key measures provided in Volume I, utilizing banners and bases from the attitudinal self-completion questionnaires.

See the Technical Appendix, Section A for details of these weighting and projection procedures.

Bases

The first page of each table displays two base lines:

- Actual Base

  The number of responses utilized in the calculation prior to weighting and projection. Measurement of the tolerance on a particular statistic requires the use of the actual base (sample size for the particular statistic).

- **Weighted Base**

  The weighted base is the actual base subsequent to all weighting and projection procedures. Percentages and averages shown in the Detailed Tabulations are calculated on the "weighted base".

Special Notes On Particular Bases

In all but two instances, banner categories in the Detailed Tabulations are based on the number of parties or persons with the particular characteristic. For example, a main purpose banner will display the number of person visits, party visits, or the expenditures made by people who declare "vacation" or "business" (etc.) to be their main purpose.

The exceptions to this rule include:

- **Nights in Specific Parks/Accommodation Types**

  The number of nights in specific parks and the number in specific accommodation types represent the number of nights actually spent in specific parks/accommodation types.

- **Expenditures In Specific Parks**

  The dollars displayed for specific parks represent the dollars actually spent (or allocated) to the specific park.

Survey Definitions

Parks Entrant
Any person who entered the four Rocky Mountain National Parks other than those who live or work in the Parks, or are in the Parks for the purposes of commuting to or from work or school, on a sales or service call, or pick-up or delivery.

Parks Visitor
An entrant who spent any time, money or did any sightseeing while within the four Rocky Mountain National Parks boundaries. Visitors to individual Parks are defined to be those individuals who spent any time, money or did any sightseeing within the boundaries of the specific park[1].

---

[1]All overnight charter and all non-English "entrants" to a specific Park are also defined as "visitors" (see questionnaire for question wording).

Thus, the individual who entered Yoho National Park and Banff National Park, but spent time/money or did sightseeing only in Banff National Park is defined as follows:

- Visitor to the Rocky Mountain National Parks;
- Visitor to Banff National Park;
- Pass-through to Yoho National Park.

Parks Pass-Through

An entrant who did not spend any time or money and did not do any sightseeing while within the four Rocky Mountain National Parks' boundaries is a pass-through for the entire parks system. The individual who entered but did not spend any time/money or do any sightseeing in a specific park is defined as a pass-through for that specific park.

Travel Party

For visitors exiting the park by private vehicle, travel party is defined as those persons travelling with them in the vehicle. For those visitors exiting via bus, train or motorcoach, the travel party includes those people whom the respondent considers to be travelling with him or her in the same travel party. This, however, does not include all people travelling together on a bus or train. In some cases, travel parties consist of members from more than one household.

Person Visitor/Entrant

A person entrant is one person who entered the Rocky Mountain National Parks system. A person visitor is one person who visited the Rocky Mountain National Parks system. If four people are travelling together, the particulars of this trip are applied to each member of the travel party. This results in a total of four person entrants or visitors, depending on the characteristics of the trip.

Party Visit/Entrant

An entrance to the Rocky Mountain National Parks by all members of the party constitutes one party entrant. Regardless of the number of people in the party, it is considered one party entrance or party visit, depending on the characteristics of the trip.

Person Night

A person night is one night on a trip spent by one person. If two people spend three nights each, this constitutes six person nights.

Party Night

This is one night spent on the trip by the party. If two people from a party spend three nights, this constitutes three party nights.

Horizontal and Vertical Percentages

Percentages are provided for columns and rows. The base lines (both actual and weighted) display horizontal percentages. Each response category (shown on the side of the table) is percentaged on the total weighted base shown at the top of the column (vertical %) and is percentaged across all the banner points shown at the top of the table (horizontal %).

In the following example, the **horizontal percentages are displayed in bold** and the vertical percentages are underlined.

	Pass-Through Parties		
	Total	Banff	Jasper
Total Party Entrants (Actual)	880 100.0	578 65.7	343 39.0
Total Party Entrants (Weighted)	615496 100.0	487272 79.2	143798 23.4
Number of People 16+			
One	140482 22.8 100.0	109272 22.4 77.8	33298 23.2 23.7
Two	385185 62.6 100.0	304510 62.5 79.1	91888 63.9 23.9

This example tells the reader that 22.8% (vertical) of all pass-through Party Entrants have one person over 16 years of age in the party, and that of all parties with one person over 16 (140,482), 109,272 or 77.8% (horizontal) passed through Banff National Park.

Table Of Contents

Each section in Volume I contains the complete Table Of Contents, indicating whether specific tabulations are to be found in Section A, B, C or D.

A listing of tolerance figures and coefficients of variation for key statistics can be found at the end of Volume D.

DETAILED TABULATIONS

VOLUME I

(Sections A - D)

NOTES AND EXPLANATIONS

Volume I

Volume I Detailed Tabulations include all banners, bases and response categories for key behavioural measures of the National Parks Utilization Study, Stage I -- Visitor Use and Profile Survey. For Summer, Spring and Fall seasons, these measures are taken from administered questionnaires. For Winter season data, responses to the self-completion behavioural questionnaire (the self-completion corollary to the administered questionnaire in all other seasons) have been weighted to match the volume estimates established on the basis of administered screening questionnaires in this season.

See the Technical Appendix, Section A for details of these weighting and projection procedures.

Volume II

Volume II includes banners and response categories from the attitudinal self-completion questionnaires. Only those individuals who returned the self-completion attitudinal questionnaire are included in these tables. For consistency, this reduced base has been projected to the total volume estimates shown in Volume I Detailed Tabulations. Volume II also repeats the key measures provided in Volume I, utilizing banners and bases from the attitudinal self-completion questionnaires.

See the Technical Appendix, Section A for details of these weighting and projection procedures.

Bases

The first page of each table displays two base lines:

- **Actual Base**

  The number of responses utilized in the calculation prior to weighting and projection. Measurement of the tolerance on a particular statistic requires the use of the actual base (sample size for the particular statistic).

- **Weighted Base**

  The weighted base is the actual base subsequent to all weighting and projection procedures. Percentages and averages shown in the Detailed Tabulations are calculated on the "weighted base".

Special Notes On Particular Bases

In all but two instances, banner categories in the Detailed Tabulations are based on the number of parties or persons with the particular characteristic. For example, a main purpose banner will display the number of person visits, party visits, or the expenditures made by people who declare "vacation" or "business" (etc.) to be their main purpose.

The exceptions to this rule include:

- **Nights in Specific Parks/Accommodation Types**

  The number of nights in specific parks and the number in specific accommodation types represent the number of nights actually spent in specific parks/accommodation types.

- **Expenditures In Specific Parks**

  The dollars displayed for specific parks represent the dollars actually spent (or allocated) to the specific park.

Survey Definitions

Parks Entrant
Any person who entered the four Rocky Mountain National Parks other than those who live or work in the Parks, or are in the Parks for the purposes of commuting to or from work or school, on a sales or service call, or pick-up or delivery.

Parks Visitor
An entrant who spent any time, money or did any sightseeing while within the four Rocky Mountain National Parks boundaries. Visitors to individual Parks are defined to be those individuals who spent any time, money or did any sightseeing within the boundaries of the specific park[1].

---

[1]All overnight charter and all non-English "entrants" to a specific Park are also defined as "visitors" (see questionnaire for question wording).

Thus, the individual who entered Yoho National Park and Banff National Park, but spent time/money or did sightseeing only in Banff National Park is defined as follows:

- Visitor to the Rocky Mountain National Parks;
- Visitor to Banff National Park;
- Pass-through to Yoho National Park.

Parks Pass-Through

An entrant who did not spend any time or money and did not do any sightseeing while within the four Rocky Mountain National Parks' boundaries is a pass-through for the entire parks system. The individual who entered but did not spend any time/money or do any sightseeing in a specific park is defined as a pass-through for that specific park.

Travel Party

For visitors exiting the park by private vehicle, travel party is defined as those persons travelling with them in the vehicle. For those visitors exiting via bus, train or motorcoach, the travel party includes those people whom the respondent considers to be travelling with him or her in the same travel party. This, however, does not include all people travelling together on a bus or train. In some cases, travel parties consist of members from more than one household.

Person Visitor/Entrant

A person entrant is one person who entered the Rocky Mountain National Parks system. A person visitor is one person who visited the Rocky Mountain National Parks system. If four people are travelling together, the particulars of this trip are applied to each member of the travel party. This results in a total of four person entrants or visitors, depending on the characteristics of the trip.

Party Visit/Entrant

An entrance to the Rocky Mountain National Parks by all members of the party constitutes one party entrant. Regardless of the number of people in the party, it is considered one party entrance or party visit, depending on the characteristics of the trip.

Person Night

A person night is one night on a trip spent by one person. If two people spend three nights each, this constitutes six person nights.

Party Night

This is one night spent on the trip by the party. If two people from a party spend three nights, this constitutes three party nights.

Horizontal and Vertical Percentages

Percentages are provided for columns and rows. The base lines (both actual and weighted) display horizontal percentages. Each response category (shown on the side of the table) is percentaged on the total weighted base shown at the top of the column (vertical %) and is percentaged across all the banner points shown at the top of the table (horizontal %).

In the following example, the horizontal percentages are displayed in bold and the vertical percentages are underlined.

	Pass-Through Parties		
	Total	Banff	Jasper
Total Party Entrants (Actual)	880 100.0	578 65.7	343 39.0
Total Party Entrants (Weighted)	615496 100.0	487272 79.2	143798 23.4
Number of People 16+			
One	140482 22.8 100.0	109272 22.4 77.8	33298 23.2 23.7
Two	385185 62.6 100.0	304510 62.5 79.1	91888 63.9 23.9

This example tells the reader that 22.8% (vertical) of all pass-through Party Entrants have one person over 16 years of age in the party, and that of all parties with one person over 16 (140,482), 109,272 or 77.8% (horizontal) passed through Banff National Park.

Table Of Contents

Each section in Volume I contains the complete Table Of Contents, indicating whether specific tabulations are to be found in Section A, B, C or D.

A listing of tolerance figures and coefficients of variation for key statistics can be found at the end of Volume D.

Tolerances And Coefficients Of Variation

TABLE OF TOLERANCES AND COEFFICIENTS OF VARIATION FOR KEY STATISTICS

Overview

The following tables present tolerances and the coefficients of variation for key volume and expenditure statistics used in this study. These are followed by tables presenting the replicates used to calculate tolerances and coefficients of variation[1].

Table Layout

Tolerance and variance data are presented in sets of three pages. The first page shows tolerances and variances for annual volume or value statistics in the left hand columns and the same data for summer season statistics in the right hand columns. These statistics are identified by the base descriptions listed on the left margin. These bases are repeated on the second page for the Fall (left columns) and Winter seasons (right columns). The third page repeats these bases for the Spring season.

For replicate data, the same bases are listed on the left margin, and the two replicates of these statistics are listed under annual and seasonal headings, from left to right.

---

[1]Replicates are independent, random sub-samples of the total sample. In effect, each replicate constitutes a separate "sample". For a more detailed description of the procedure used to calculate coefficients of variation, see Technical Appendix, Section F.

Volume statistics are expressed in numbers (of entrants, persons, parties, nights, etc.). Value or expenditure statistics are expressed in Canadian dollars.

Definitions

Column headings and base descriptions used in the following tables are explained below[1].

SIMP ERR
Simple error. This is calculated by subtracting the minimum replicate from the maximum replicate for that statistic.

X D FAC
Times design factor. This is the simple error multiplied by the design factor (of 2.5%) for the study.

CV
Coefficient of variation. This is the simple error multiplied by the design factor and divided by the estimate.

TOL @ 95
Tolerance at 95%. This is the simple error multiplied by the design factor multiplied by 2.

% AT 95
Percentage at 95%. This is the tolerance shown as a percentage, calculated by dividing the tolerance by the estimate.

---

[1]For a more detailed definition of the terms used in tolerance and variance calculation, see Technical Appendix, Section F.

TOTAL PARTY/PERSON E - TO
Total party/person entrants to the four parks in total.

TOTAL PARTY/PERSON E - BF
Total party/person entrants to Banff National Park.

TOTAL PARTY/PERSON E - JA
Total party/person entrants to Jasper National Park.

TOTAL PARTY/PERSON E - ALB
Total party/person entrants to Alberta parks (Banff and/or Jasper National Park) in total.

TOTAL PARTY/PERSON E - YO
Total party/person entrants to Yoho National Park.

TOTAL PARTY/PERSON E - KO
Total party/person entrants to Kootenay National Park.

TOTAL PARTY/PERSON E - BC
Total party/person entrants to British Columbia parks (Yoho and/or Kootenay National Park) in total.

TOTAL PARTY/PERSON V - TO (etc.)
Total party/person visits to the four parks in total. Party/person visits to individual parks are described in the same manner as party/person entrants, and these designators are used throughout these tables. In some cases, ALTA is used in place of ALB to describe the two Alberta parks.

TOTAL PARTY/PERSON N - TO (etc.)
Total party/person nights in the four parks in total.

TOTAL EXP - TO
Total expenditures made in the four parks in total. Expenditures in individual parks are described in the same manner as volume statistics. Expenditures in specific categories are listed below total expenditures.

Tolerances and variances for key volume statistics are also shown broken out by origin, same-day or overnight visit and type of accommodation used[1]. Tolerances and variances for total pass-through person and party statistics are also listed.

Replicates for individual statistics are listed and described in the same manner as tolerances and variances.

Statistics Canada's Classes Of Statistics

The table on the following page shows classes of statistics (at the 95% confidence level) ranked according to Statistics Canada's standards. To determine the class to which a particular statistic belongs, read the percentage figure shown under the column headed CV (coefficient of variation) on the tolerance and variance tables for that particular statistic, and apply it to the Statistics Canada's Class of Statistics table.

---

[1]Under accommodation types, **ALL ROOFED PERSON N** refers to person nights spent in any commercial roofed accommodation, including hotels, motels, resorts/lodges, bed and breakfast establishments, youth hostels and commercial cottages/cabins. **H/MOTEL/RES. PERSON N** refers to person nights spent in hotels, motels and resorts/lodges; **OTHER ROOFED PERSON N** refers to person nights spent in all other commercial roofed accommodation (apart from commercial cottages or cabins). **COTTAGE PERSON N** refers to nights spent in commercial cottages or cabins and **VFR/VAC HOME PERSON N** refers to person nights spent with friends or relatives or in one's own vacation home. **CAMPING PERSON N** refers to person nights spent at campsites/trailer parks and in the back country.

For example, the coefficient of variation for total annual person visits to Banff National Park (3,144,500) is 4.13%. Applying this figure to the Class of Statistics table reveals that this is a class "D" statistic.

STATISTICS CANADA CLASSES OF STATISTICS[1]

Coefficient Of Variation

A	0.0 - 0.59%	
B	0.6 - 1.0%	
C	1.1 - 2.5%	
D	2.6 - 5.0%	
E	5.1 - 10.0%	
F	10.1 - 16.5%	
G	16.6 - 25.0%	Qualified Number: Use With Extreme Caution
H	25.1% - Or More	Unpublishable by Statistics Canada's Standards

[1]At the 95% level of confidence. See Technical Appendix for a discussion of the calculation of the Coefficient of Variation.
